PROFESSIONAL SUMMARY

UX Designer with 3+ years of experience across enterprise SaaS, workflow-oriented products, and digital banking platforms. I enjoy turning business requirements and operational complexity into clear user flows, information architecture, wireframes, prototypes, and reusable UI patterns. Comfortable collaborating with PMs, engineers, and researchers — with attention to accessibility, usability, and design documentation. Currently learning how AI-assisted design fits into enterprise product work.

PROFESSIONAL EXPERIENCE

UX/UI Designer @ MAYTRIX 07/2025 — Present

Contributed UX design across an enterprise education ecosystem covering internal operations and online learning platforms.

- Exam Prep & Online Course Platform** — Learning platform for practice tests, mock exams, and self-paced courses.
- Enterprise Operations Platform** — Role-based CRM supporting workflow across accounting, academic affairs, and teaching staff.
- Test-Center Landing Pages** — Web experience for the exam-prep center, aligned with shared UI patterns.

UX/UI Designer @ KIENLONGBANK 08/2023 — 08/2024

Designed enterprise banking solutions focused on digital lending, employee financial services, and workflow-oriented banking operations.

Project: Earned Wage Access

Designed a flexible salary-access platform enabling employees to receive earned wages before payday.

- Produced user flows, IA, wireframes, and low-fi/hi-fi prototypes for employee and HR admin views.
- Conducted internal usability reviews; captured notes and synthesized findings into workflow improvements.
- Ensured UI consistency and WCAG-aligned accessibility across web and mobile, per design system standards.

Project: Loan Origination System

Designed an enterprise loan origination platform that streamlined multi-step approval workflows for banking operations.

- Structured complex forms, dashboards, and multi-step approval flows for workflow efficiency.
- Built reusable UI components aligned with the design system and enterprise workflow standards.
- Partnered with PMs, BAs, engineers, and QA — from research synthesis to design documentation and handoff.

PROFESSIONAL EXPERIENCE (CONTINUED)

UX/UI Designer @ UNICLOUD GROUP

09/2022 — 08/2023

Designed fintech and enterprise banking products spanning consumer payments, merchant tools, and internal back-office platforms.

- **KienlongBank Pay** — Payment management platform for retail customers; focused on transaction flows and mobile UI patterns.
- **UniPOS** — Merchant POS experience covering sales, inventory, and store management, with reusable back-office UI patterns.
- **Pay Gate Core** — Payment gateway dashboard for processing and reconciling transactions across channels.
- **eKYC** — Electronic identity verification (Know-Your-Customer) onboarding flow with accessibility guidance.
- **UnicloudCA** — Digital signature & e-contract certificate authority, aligned with the shared design system.

UX/UI Designer @ PITO

(Freelance) 04/2024 — 04/2025

- **Pito Web Platform** — B2B ordering for company meals and event catering.
- **Pito Mobile App** — On-the-go ordering and order tracking for business clients.

UX/UI Designer @ EVOL

(Freelance) 03/2026 — Present

- **AI CRM Integration Platform** — Chat bot, eTag & time-attendance flows built into the platform.
- **Workforce Management Suite** — Manage staff, work locations, and projects on the web.
- **Project Management Tool** — Project tracking connected to the integration services above.
